- Risk insurance customers.

BKLTRANS LLC

198035 Sankt-Petersburg, Russia

**High speed create quality traffic
in your direction.**

Each your order, regardless of its complexity, be performed quickly and safely with full control of all the stages included in the delivery of goods.

Our main advantages – it's efficiency, reliability and quality service when dealing with any problems on the transport and customs clearance.

The main areas of BKLTRANS are:

- Ferry services (Ro-Ro): Lübeck, Kiel, Antwerp - St. Petersburg (Ust-Luga).
- Road transport «land»: D, DK, NL, B, FR, IT, ES, CZ, SRB, CH, PL, LT, LV- RUS (St.Petersburg, Moscow and other regions).
- Fixed-combination intra all modes of transport, as well as the possibility of groupage, oversized and heavy cargo.
- Store Services and paperwork (ware-house in Germany, with the possibility of consolidation and deconsolidation of goods, organization overloads documents T1, EX, CMR, Fito)
- Container shipping «door to door»: Europe (Hamburg, Antwerp, Rotterdam, Bilbao)
- Port forwarding (St.Petersburg, Ust-Luga, Lübeck, Kiel, Hamburg, Antwerp)

Multimodal transportations carried out both in-house and through long-term contracts with business partners. Our company has an office in Germany BKL Spedition GmbH (port of Lübeck, as well as warehouse LOGISTIKZENTRUM BKL).

A significant advantage of our company is the ability to consolidate their goods in the warehouse.

Transportation of small consignments of goods over long distances, we carry out the delivery system and consolidation of cargoes on our transit warehouse in Germany and their subsequent shipment to Russia through the Baltic customs.

Consolidation is an effective solution in case of delivery of small consignments of goods or ordering goods from different suppliers one recipient.

Services:

- Storing
- Packing and sorting
- Pallet packaging
- Supporting documents

Thanks to the great experience we provide reception of goods with utmost care and delicacy, recording every moment documentation for a detailed study.
